## BEST-BOND BONDING AGENT

P.V.A Bonding agent and Mortar additive  
THE TRUSTED NAME IN BONDING AGENTS  
Suitable for many uses, which include

- Cement toppings
- Rendering
- Sealing
- Plaster/hard plaster
- Dust Proofing
- Binding
- Bonding new to old concrete
- Woodwork/carpentry adhesive

Note: This product is not suitable to be used in permanently wet areas.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
BEST500	500ML - BONDING AND MORTAR ADDITIVE	10
BEST1	1 litre - BONDING AND MORTAR ADDITIVE	12
BEST2	2 litre - BONDING AND MORTAR ADDITIVE	6
BEST4	4 litre - BONDING AND MORTAR ADDITIVE	4
BEST10	10 litre - BONDING AND MORTAR ADDITIVE	1
BEST20	20 litre - BONDING AND MORTAR ADDITIVE	1

## PRIME EXPOSURE - FOR EXPOSED AGGREGATE

PRIME EXPOSURE is used to expose the aggregate in concrete surfaces.

PRIME EXPOSURE works by delaying the set of the slurry (fat) on the concrete surface to expose the surface aggregate.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
PRIME20	PRIME EXPOSURE - 20LT	32

## WATERPROOFER - 404 - WHITE

WATERPROOFER 404 is a ready to use high quality ammonium stearate based waterproofing liquid. When used in Portland cement based mixtures it forms calcium stearate, a highly water repellent material. This coats the capillary pores of the cement, substantially increasing the water resistance.

WATERPROOFER 404 greatly minimises the absorption and permeation of water in concretes, renders, bagging mixes and mortars both above and below ground level.

### WATERPROOFER 404 ADVANTAGES

- Improves the water resistance of cement mixes, renders, bagging mixes and mortars.
- Improves workability.
- Can be used above or below ground level.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
40425.....	WATERPROOFER #404 - 2.5 LITRE - WHITE COLOUR .....	8
4045.....	WATERPROOFER #404 - 5 LITRE - WHITE COLOUR .....	4
40420.....	WATERPROOFER #404 - 20 LITRE - WHITE- COLOUR.....	1

## WATERPROOFER - 104 - PINK

WATERPROOFER 104 is a ready to use quality waterproofer. It is formulated for use in improving the water resistant properties of Portland type cement brick mortars and renders. It also improves the workability and plasticity and does not impart any colouration.

### WATERPROOFER 104 ADVANTAGES.

- Improves the water resistance of brick mortars and renders.
- Improves workability and plasticity.
- Economical to use.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
WP25.....	WATERPROOFER #104 - 2.5 LITRE - RED/PINK COLOUR.....	8
WP5.....	WATERPROOFER #104 - 5 LITRE - RED/PINK COLOUR.....	4
WP20.....	WATERPROOFER #104 - 20 LITRE - RED/PINK COLOUR.....	1

## RAPID SETTER - 704

RAPID SET 704 is a formulated additive that accelerates the drying time of concretes and mortars. This can be very useful in a number of ways, such as early removal of formwork and faster setting of fence posts.

### RAPID SET 704 ADVANTAGES

- Faster curing time of cement and mortar.
- Allows for earlier removal of formwork.
- Faster construction of fences.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
7045.....	KWIK SETTER #704 - 5 LITRE .....	4
70420.....	KWIK SETTER #704 - 20 LITRE .....	1

## PLASTICISER - 504

PLASTICISER 504 is a formulated honey coloured anionic surfactant solution used as an air entraining agent designed to improve the water retention and workability of cement based mortars or when extra plasticity is required when harsh sands are used.

PLASTICISER 504 is suitable for use in all types of mortars using Portland type cement. It will help enhance pigment colour used in coloured mortars, unlike hydrated lime, which can fade coloured mortars.

### PLASTICISER 504 ADVANTAGES.

- Allows for easy placement of brickwork.
- Full colour achieved in coloured mortars.
- Improves workability.
- Reduces segregation and bleeding.
- Replaces the need for lime.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
5025.....	PLASTICIZER #504 - 2.5 LITRE .....	8
5045.....	PLASTICIZER #504 - 5 LITRE .....	4
50420.....	PLASTICIZER #504 - 20 LITRE .....	1

## HYDRO ACID

Used in Construction (brick cleaning)  
For use in electroplating, construction (brick cleaning), aquatic centres and private swimming pools, boiler scale removal and for effluent treatment.

\* Victorian Customers Only.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
H500.....	HYDROCHLORIC ACID - 500ML .....	20
H5.....	HYDROCHLORIC ACID - 5 LITRE .....	3
H20.....	HYDROCHLORIC ACID - 20 LITRE .....	1

## MARX CONSTRUCTION SPRAY PAINT

- Upside Down Aerosol Paint
- For Construction Site Layout, Marking Trenches, Perimeters, Etc.
- Vast Selection Of Colours

**MARX** the new name in Spot and Survey Paint.  
Exclusively available from Masonry Hardware.

ITEM CODE	PRODUCT DESCRIPTION	PACK QTY
MXB.....	350G - BLUE.....	12
MXW.....	350G - WHITE.....	12
MXY.....	350G - YELLOW.....	12
MXFP.....	350G - FLURO PINK.....	12
MXFY.....	350G - FLURO YELLOW.....	12
MXFO.....	350G - FLURO ORANGE.....	12
MXO.....	350G - ORANGE.....	12
MXR.....	350G - RED.....	12
MXG.....	350G - GREEN.....	12
